Warning

- When installing the main unit, do not remove or alter existing vehicle fasteners, including nuts, bolts, screw, clips, and fittings. Never detach, move or alter existing vehicle wiring, including electrical grounds and straps. Alteration of existing vehicle components may make vehicle unsafe to operate. Should be no any electronic devices or magnetic pole around installation place.
- Air bags are vital part of a safety system. Never install main unit in a way which will alter air bag wiring or interfere with air bag deployment. Air bags must function properly in the event of an accident.
- Before installing, check the location of pipe, tank, electrical cables and others.
- Read and follow the instruction manual.
- Wiring location must not interfere driving, get in or out from car.
- Use electrical tape to insulate the ends of all wires, even if they are not used. Proper insulation prevents arcs, shocks and fires.
- When installation is complete, test all vehicle electrical systems to ensure they operate correctly, including lights, horn, brake lights, and emergency flashers.
- According to our sales policy, any problems caused by user’s mistake, careless can not be guaranteed.

Caution

- All steps of installation should be done by well-trained specialist.
- During installation ignition key should be taken off and after all installation finish connect power cable with interface for the last step.
- Do not install the main unit in places where it ma be exposed to dew condensation (around the air conditioning hose, etc), or in locations where it may come in contact with water, high levels of moisture, dust or oily smoke.
- Install wiring in a manner in which cables will not come in contact with metal parts. The wiring may be damaged by contact with metal parts, resulting in fire and shocks. Avoid all contact with hot surfaces when wiring the main unit. High temperatures may damage wiring, causing shorts, arcing and fires.
- Kindly check all parts are in the box, when receiving the product, if anything missing, inform to the supplier or manufacturer.

ACC
CAN(H)
CAN(L)
2. Installation

2.2 Installation / Monitor and Interface connection

① See left picture, Remove original LCD cable from monitor and connect with provided LCD cable.

② Connect the original LCD cable with LCD-IN on the interface.

※ Precaution: Do not connect power cable with accessory power, connect with backside of command or cigar jack.
3. Settings

3.1 DIP Switch

※ Example DIP S/W usage
- Use input mode : A/V2, A/V3
- Use original navigation
- External rear camera

▷ DIP S/W : 1,2 → ON (Hide INPUT MODE)
▷ DIP S/W : 3 → OFF (A/V2 display)
▷ DIP S/W : 4 → OFF (A/V3 display)
▷ DIP S/W : 5,6 → OFF
▷ DIP S/W : 7 → ON (display external rear cam)
▷ DIP S/W : 8 → OFF

※ ON : DOWN / OFF : UP
Default : DIP S/W 8 OFF

3.3 Car Model and Navi Model

FACTORY mode – Press ▼ button 2 seconds long on the remote control.

### Setup for car model

![Menu of FACTORY](image1)

**UTIL1 - CAR MODEL**

Selecting model of the car

- F10 : 5 Series 2009~2012
- E90 2014Y : X1 2014~
- E90 : No use

* Set pin#5 of DIP switch to the right size of the monitor after selecting model of the car. (Refer to page 9.)

### Setup for navigation

![Menu of FACTORY](image2)

**UTIL1 – NAVE MODEL**

Select of the navigation Model

- DEFAULT
- PAPAGO (WVGA)
- NAVIST OEM (WVGA)
- GN-3000 (WVGA)
- ICUBE (WVGA)
- NAV-506TP (WVGA)
- MYVI (WVGA)
- WP9200 (WVGA)
- HDMI (WVGA)
- GI-8000N 3D (WVGA)
- GI-5000A (WVGA)
- A-CLASS (WVGA)
- KD-900 (WVGA)
- PAPAGO (WQVGA)
- LS-901 (WQVGA)

* Go into FACTORY/ UTIL1 (as shown right) and adjust the position and the size of the navigation after setting the definition of the navigation

### IMAGE

Adjust navigation position and size

- **H-POSITION** : Move display horizontally
- **V-POSITION** : Move display vertically
- **H-SIZE** : Adjust navi size horizontally
3. Settings

3.4 FACTORY Mode

FACTORY mode – Press ▶ button 2 seconds long on the remote control.

- UTIL1 – AVOUT SELECT
  Selecting background sound After returning navigation or original mode

  DEFAULT : Selecting AV sound just before changing navigation or original mode from the AV mode

  AV 1~3 : Sound of the selected AV source 1~3

- UTIL1 – HDMI SKIP
  Selecting the use of HDMI mode ON / OFF

- UTIL1 - FACTORY RESET
  - Reset

  ※ Long press the ▶ button
3. Settings

3.4 FACTORY Mode

FACTORY mode – Press 🔄 button 2 seconds long on the remote control.

- UTIL2 - I_DRV REMOTE
  Choose DTV and DVD model to be control I_DRV function

  - Select DVD model: Setting on AV1 Mode
  - Select DTV model: Setting on A/V2 mode

- UTIL2 - I_DRV CONTROL
  Selecting whether to use I_DRV function or not

  ON / OFF

  A/V1 : Control DVD Remote control UI
  A/V2 : Control DTV Remote control UI
3.4 FACTORY Mode

FACTORY mode – Press ◄ button 2 seconds long on the remote control.

- **UTIL2 – IR MEMORY**
  To register DVD, DTV remote control, the remote control value must be registered and can be controlled with I-Drive DVD(A/V1), DTV(A/V2)

4. Trouble Shooting

Q. I cannot change mode
A. Check connection of Ground cable and IR Cable.
   Check LED lamp is on, if not check connection of POWER cable.

Q. All I got on the screen is black.
A. Check second LED lamp of the interface is on, if not, check A/V sources
   connected are working well.
   (Second lamp indicates AV sources connected works well.) Check
   interface connection has been done well.

Q. Displayed image color is not proper (too dark or unsuitable color)
A. Try to select "INITIAL" in OSD menu, if it does not work, inform to
   manufacturer.

Q. I cannot watch the rear camera on the screen
A. Set the DIP switch #7 as state “ON”.

Q. Set mode not appear
A. Check DIP Switch.

Q. OEM image is not displayed.
A. Check interface’s LCD In/Out cable connection. If the status keeps on,
   inform to manufacturer.

Q. Screen only displays white color.
A. Check LCD out cable is connected well, if this status keeps, inform to
   manufacturer.

Q. Show PIP function via handle button, and original screen appear half only.
A. This is not because of faulty interface, please check original monitor split
   function settings.

Q. After connect CAN cable, set gear “R”, video doesn’t appear.
A. Go to “FACTORY MODE” and check “UTIL-Rear Select”. Change
   “LAMP” settings to “CAN” with remote control.
   ※ LAMP : In case of connecting “Rear-C” wire of Power Cable to Rear
   Lamp in vehicle.
   It may not work on a camera with 12V
